

# Retail Service Offerings

## Fact Sheet

Clean Harbors Retail Service offerings result in savings to your bottom line. From the collection and disposal of damaged, discarded, or recalled products; the recycling of light bulbs, oil, oil filters, engine fluids, and other materials; to on-site cleanup activities, Clean Harbors services thousands of retail locations and offers solutions tailored to your retail business in a safe, compliant, and cost-effective manner.

We recognize the challenges the retail industry faces finding suppliers with national capabilities. Clean Harbors is the one source supplier with capabilities covering the U.S., Canada, and Puerto Rico. We empower you and your retail business to focus on profitable, safe, and efficient retail operations through our delivery and performance of a wide range of environmental services, as well as employment of industry leading technical and project management personnel.

- **Damaged & Discarded Goods Management:** Clean Harbors provides sorting, packaging, manifesting, and disposal of damaged, spilled, or otherwise discarded shelf products.
- **Recall Products Collection & Management:** We collect and manage unsafe, hazardous, or defective products that are being recalled or discontinued so they will not be misused or end up in the wrong hands.
- **Used Oil & Filter Collection and Other Combustion Engine Fluids:** Whether you offer “do it for me” (DIFM) repair service or “do it yourself” (DIY) auto maintenance or waste oil drop off, we collect and recycle automotive fluids and products.
- **Catch Basin Cleaning:** Our service is essential for maintaining catch basins to prevent sewer blockages, prevent parking lot flooding, and reduce the amount of pollutants entering storm sewers, which discharge directly into our waterways.
- **Oil Water Separator Cleaning:** Clean Harbors will provide a complete inspection of your system and recommend a cleaning program that will meet your needs and the requirements of the law.
- **Light Bulb Recycling Services:** We recycle 100% of the components of straight tubes, U-tubes, circular lamps, high intensity discharge (HID) lamps, and fluorescent bulbs.
- **Collection & Recycling of Used Batteries:** We collect batteries for recycling -from small alkaline and NiCad batteries to auto and truck batteries.

## At Your Service.

We understand the regulatory, operating, and cost management challenges faced by the retail industry. Clean Harbors Retail Services help retailers of all sizes manage their environmental needs so they can focus on their core business.

- **Emergency & Rapid Response to Store Spills & Upset Events:** Keep your retail locations free of hazardous and unwanted materials through our customized subscription program that provides services on a 30, 60, or 90-day or other cycle time basis. Our 24-hour emergency spill response service is available throughout North America.
- **Materials & Supplies to Store & Prepare Waste Items for Transport per DOT or TDG Guidelines:** Let Clean Harbors provide all necessary material and supplies for proper packaging and shipment. We can provide hazardous waste storage kits including all approved containers, containment basins, spill kits, labels, and signs to safely and properly store your waste materials.
- **Management Reports Related to Hazardous Waste Activities:** Clean Harbors provides you with the reports to track your waste shipment activities, keeping you informed and within all regulatory requirements. We provide photo lab disposal services, as well as comprehensive collection, disposal, and recycling options for all aqueous photo wastes.
